Softball

1. Softball games will follow the National Federation – Slow Pitch rules for the current season.
2. WALL games will be coed – both boys and girls constituting league teams. A minimum of 4 girls must be in the line-up at any one time. If this minimum can't be met, the coaches will agree upon a suitable equitable alternative. The first alternative batter be 5th, then 6th grade boy when minimum number of girl players is unavailable.
3. General play:
 - a. A playing team will consist of 10 players. A minimum of 9 players may be used.
 - b. Players may wear rubber spiked shoes. No metal spiked shoes will be allowed.
 - c. A game consists of 7 innings. Extra inning(s) will be allowed to break tie games.
 - d. The bases are 60 feet apart. A “double” first base consisting of white and orange colors will be used.
 - e. A mat will be used for balls and strikes. The strike zone will include the plate and the mat. The total length of the strike zone is 36 inches.
 - f. The pitcher's plate is to be 40 feet from the back edge of home plate.
 - g. A starting player may be withdrawn and reentered once, providing the player reenters in the same position in the batting order.
 - h. The home team is to supply at least one competent umpire for each match. The umpire should go over the field's ground rules before the game begins. Any special rules must be determined before the game begins.
 - i. Game balls may consist of either leather or synthetic covering.
 - j. Only one coach is allowed at first base and third base.
4. Batting
 - a. A batter will be allowed three balls and two strikes. On strikes, unlimited foul balls are allowed.
 - b. The infield fly rule is in effect:
 - i. Base runners on first and second or bases loaded and less than two outs in all situations.
 - ii. The fly ball must be able to be caught with reasonable effort by an infielder, pitcher, or catcher in fair territory.
 - c. An assigned hitter (AH- an eleventh batter) will be allowed as an option in the batting order. Another option allowed is a team may bat all players present composing the team.
 - d. A foul ball which rises above the batter's head and is caught by the catcher (or pitcher in foul territory) is an out.
 - i. A foul tip is a batted ball that goes sharply and directly from the bat to the catcher's mitt or hand and is legally caught by the catcher. It is a strike. If it is the second strike, the batter is out. The ball then becomes dead and any runner(s) may not advance.
5. Base running
 - a. A base runner may leave the base when the batter swings the bat on a pitched ball.
 - i. Any runner leaving the base before the swing is made will be called out.
 - b. A base runner is declared to be out when hit by a batted ball while off of the base.
 - i. The ball is dead and any other base runner(s) must return to the base occupied at the time of the pitch.
 - c. A base runner that interferes with a defensive player's attempt to play a ball will be called out.
 - i. The ball is dead and all runners must return to the base occupied at the time of the pitch.
 - d. A base runner may advance with liability on a caught or uncaught infield fly or caught foul ball.
 - e. A runner may advance with liability on a caught fair ball after first tagging up at the base occupied at the time of the pitch.
 - f. A base runner must touch home plate to score a run. A player touching only the mat has not scored and is liable to be tagged or forced out.

6. Pitching

- a. A legal pitch must rise to a minimum height of six feet from the ground but no more than twelve feet.
- b. One foot must remain in contact with the pitcher's plate upon release of the ball to the batter.
- c. The umpire must call "FLAT" or "HIGH" before the ball reaches the batter. However, the batter may choose to hit the ball. Then it is treated as a legal pitch.
- d. A strike will be called when any portion of the ball strikes any portion of the mat and/or the plate.
- e. A pitch that fails to strike any portion of the mat and/or the plate will be called a ball.

7. Rules adaptations 3/19/2017

- a. For the league tournament, officials should be paid and enforce all rules strictly. (Officials are to receive this information sheet before all regular season and tournament games.)
- b. Batting order should consist at any place no more than two boys batting in a row. (Generally places in the lineup- here are samples: BGBGBBGBGB, GBGBGBGBGB, or BGBGBGBGBG-Tournament play only). Regular season can use unlimited hitters and this order to be practiced with possible exceptions made by coaches throughout the regular season only.
- c. The regular season games or season ending tournament should terminate any game after 4 innings with 15 run rule or 5 (or 6) innings 10 run rule. Exception: During the regular season, the final score will be counted, but play may continue by coaches mutually agreed upon. No score will be kept after final has been determined.
- d. Schools are recommended to have helmets for play, but not mandated. Liability remains with each individual team.
- e. Schools are recommended to fill the catcher (C) position with someone old enough and experienced enough to handle the position.
- f. In line with co-ed rules and the batting order, the WALL league will implement this rule to avoid pitching around selective batters. If a pitcher wishes to purposely walk a batter, just request to the umpire and point to walk to save time in a game. Therefore, if a boy is walked on 3 straight pitches, the next female batter may opt to hit or take a walk. If the boy batter receives one strike (or foul ball), this rule is not in effect. This rule does not apply to any batting order where a boy follows a boy in the order. (Regular season and tournament)
- g. Any ball deemed out of play by an official, all base runners will receive one extra base. (Example: hitter goes to second, 2nd base to home- a +1 mentality)

8. WALL Sliding Rule:

- a. When a defensive player has the ball, and the runner remains on his/her feet and deliberately crashes into the defensive player waiting to apply the tag, the runner is out, the ball is dead and all other runners must return to the last base touched at the time of the collision. Note: If the act is determined to be flagrant, the offender shall be ejected. In order to prevent a deliberate crash ruling, the runner can **give up, slide, go around the defender, or return to the previous base touched.** *This rule will be strictly enforced in order to prevent injury and protect the defensive player who has possession of the ball.* Fielders should not block the base without possession of the ball (that is obstruction), they should stand to the side of the base, not in front of the base, catch the ball, then apply the tag. If a defensive player is fielding a thrown ball and the flight of the ball draws the fielder into the path of the runner, this would not be a crash. If the ball, runner and the defensive player all arrive at the same time and contact is made, the umpire should not invoke the crash rule or obstruction-this is merely incidental contact.
